

Super Theory Joint Group Seminar Schedule

Fall 2017

September 5th	
September 12th	Dr. Thomas Fransson, Stanford University: <i>A sheep among wolves: Experiments at the LCLS free-electron laser from a theoretical chemist's point of view</i>
September 19th	
September 26th	
October 3rd	
October 10th	
October 17th	Dr. Vojtech Vlcek, UCLA: <i>Stochastic approaches to electronic excitations in nanoscale systems</i>
October 24th	Dr. Ana Cunha, Groningen, Netherlands: <i>Probing orientation of RecA on a membrane with infrared spectroscopy</i>
October 31st	Dr. Elisa Jimenez Izal, UCLA: <i>Computational design of functional materials: heterogeneous nanocatalysts and two-dimensional materials</i>
November 7th	Prof. Shaama Sharada, USC
November 14th	
November 21st	No seminar (<i>Thanksgiving</i>)
November 28th	
December 5th	
December 12th	

seminars are held on Tuesdays in SSL 150 at 5 pm
